3. PLEASE CHECK WHICH YOU WISH TO APPLY FOR.

Full Saskatchewan Certificate of Recognition (COR)

Available to companies that have permanent office(s) in Saskatchewan. Companies may certify divisions, branches or sections of a WCB account number; however, each WCB account must qualify for its own COR. By registering into the SCSA COR Program your company is committing to actively progress through the required milestones of achieving this prestigious certification within 18 months. To remain registered in the COR program, you must complete Milestone #1 requirements within the first 12 months of registration, followed by achieving certification status by 18 months. The SCSA COR Program requires a minimum of (1) full time permanent Saskatchewan employee to complete and maintain SCSA COR training requirements. A person can only be the trained employee for (1) WCB Account number. Positions that are excluded from the definition of "full time permanent Saskatchewan Employee" include consultants, sub-contractors, part time, and casual employees.

Saskatchewan COR Equivalency

Available to companies that are currently working in Saskatchewan that **do not** have a permanent office in Saskatchewan and they hold a valid COR in another province. (Subject to an External Limited scope audit on Saskatchewan worksites).

NAME (Please print):		TITLE:	
SIGNATURE:		DATE:	

COR® is a registered trademark of members of the Canadian Federation of Construction Safety Associations.

Please send your completed form to the Program Administration department at either SCSA office.
