

Choose a Career in Safety!

SASKATCHEWAN
CONSTRUCTION SAFETY
ASSOCIATION

The Saskatchewan Construction Safety Association (SCSA) is a nonprofit organization that provides safety training and advice to construction employees and employers throughout the province in an effort to reduce the human and financial loss associated with injuries in the construction industry.

BENEFITS

- ✓ It's fun, exciting, and you can make an important difference in a workplace
- ✓ Save yourself and others from avoidable worksite injuries and tragedies
- ✓ Be known as a safety leader and a vital asset to any company/organization
- ✓ Help your team perform projects on time, and on budget, with zero injuries!

FREQUENTLY ASKED QUESTIONS

What do NCSOs & HSAs do? National Construction Safety Officers and Health and Safety Administrators work with employees and management to develop and maintain health and safety management systems to evaluate, monitor, and control hazards in the workplace.

Is there a demand for construction safety professionals? Yes, there is an increasing demand for those with formal health and safety training to ensure the safety of construction workers.

What kind of experience do I need? To become a NCSO, three years of documented field construction experience is required. No previous experience is required to become a HSA.

What kind of salary can I expect? Please visit www.gov.sk.ca and view the latest Saskatchewan Wage Survey Report for the most accurate salary information.

REMEMBER YOUR RIGHTS!
