

"Making Safety Everyone's Business"

MOOSE JAW REGIONAL SAFETY COMMITTEE 2018 MEETING #2

DATE: Friday, April 13, 2018
TIME: 12:00 P.M.
LOCATION: Houston Pizza – 117 Main Street N, Moose Jaw, SK

AGENDA

- 2.0 Call to Order - Introductions
- 2.1 Adoption of Agenda
- 2.2 Adoption of Minutes
- 2.3 Business Arising from Minutes
- 2.4 Reports
 - 2.4.1 Chairperson's Report
 - 2.4.2 SCSA Update
- 2.5 New Business
 - 2.5.1 SaskPower – Working safely around power presentation
 - 2.5.2 Tool Box Talk- Mold and Mildew
 - 2.5.3 2018 NAOSH
 - 2.5.4 Accident/Incident Discussion
 - 2.5.5 Discussion Items
- 2.6 Date of Next Meeting – August 17, 2018
- 2.7 Adjournment

Please RSVP on or before April 6, 2018

SCSA Update

March/April 2018

SCSA GOES LIVE

At the Constructing Safety Leadership conference on March 20, 2018 the SCSA streamed its first FaceBook LIVE event. The panel discussion, led by industry heads, on Managing Sub-Contractor Safety is available at @SCSAonline

The SCSA will be live-streaming the Miller Thomson LLP 2018 Construction Law Conference on Thursday, April 12th. Don't miss a single session, go to @SCSAonline and Like our page to watch:

10:30 am The Good, the Bad, and the Ugly - Management and Resolution of Construction Claims

1:00 pm Aboriginal Engagement - Building Relationships and Participation in Project Construction

2:00 pm What Can You Do About Cannabis? A Discussion of the Issues in the Lead up to Legislation

NOTE: these sessions will be available on our FaceBook page after the event

CAREER SAFETY EDUCATION ANNOUNCED

The SCSA is proud to announce the formation of a strategic alliance of organizations brought together by the Saskatchewan Safety Council that results in everyone in Saskatchewan between the ages of 14 and 21 having access to completely free career focused safety education. For details visit our website at www.scsaonline.ca

SCSA RECOGNIZED

The SCSA has been recognized through a nomination for a Paragon Award for Marketing & Promotional Achievement. Winners will be announced at a banquet on April 6, 2018

Elements of the new visual identity have been developed around the the Mission of *Constructing Safety Leadership* and the Vision of *becoming the safest construction environment in Canada.*

NAOSH

North American Occupational Safety and Health week is May 6th through 12th, 2018. Check out the Events page of the SCSA website for a full list of the activities that RSCs are involved with throughout the province.

NCSO EXAM DATES

April 13, 2018 - Saskatoon

May 4, 2018 - Regina

June 8, 2018 - Saskatoon

Check back for further NCSO Exam date options

To register for the NCSO exam, please contact your nearest SCSA office.

Tool Box Talk

April 2016

HAZARD RECOGNITION & IDENTIFICATION

What is mould and mildew?

They are types of fungi that thrive in moist environments. **Mildew** is mould in its early stage and is typically white or grey and has a downy or powdery texture. **Mould** can be orange, green, black, brown, pink, or purple in colour with a fuzzy or slimy texture.

Where can you find it?

Mould spores are always present outdoors and often find a way indoors. Mould growths or colonies can begin to grow on a damp surface, including wood products, ceiling tiles, cardboard, wallpaper, carpets, drywall, fabric, plants, foods, insulation, decaying leaves, and other organic materials, within 24 to 48 hours of exposure to water.

Be aware of trapped moisture in walls, floors, and other surfaces in unventilated and unheated areas

Mould on construction sites

The growth of mould on construction sites are common as they are prone to moisture and uncontrolled humidity—the perfect environment for mould to grow. When airborne, the billions of spores per square metre produced by mould growth may pose a potential health risk when inhaled by those with compromised immune systems, pregnant women, and individuals who have existing respiratory conditions. Some symptoms of mould inhalation include:

- ⇒ Respiratory problems: wheezing, asthma attacks, etc.
- ⇒ Nasal and sinus congestion or dry, hacking cough
- ⇒ Skin irritations—rashes or hives
- ⇒ Nervous system—headaches, memory loss
- ⇒ Aches and pains

For more information, visit the Canadian Centre for Occupational Health and Safety (CCOHS) website.

WORKER ORIENTATION

OHS guidelines

Aside from the health and financial impacts the growth of mould can have on a construction project, it is also important to consider the Occupational Health and Safety (OHS) implications of mould growth. As per OHS guidelines, consider the following safety practices and procedures when dealing with potential, or existing, mould growth, to avoid its adverse health effects:

- ⇒ If mould is found, work in that area is to be stopped and the worker is to report the mould to the supervisor immediately
- ⇒ Mould must not be disturbed because it may become airborne and contaminate other areas
- ⇒ Wet construction material must not be installed unless part of an approved process
- ⇒ Mouldy construction materials must not be installed
- ⇒ Workers must report wet or mouldy construction materials immediately so proper corrective measures like drying, cleaning or replacement can be implemented.
- ⇒ Where water is introduced as part of a construction process, every reasonable effort should be made to dry out wet materials within 24 hrs (48 hrs maximum)

Best practices

- ⇒ Protect stored materials from moisture;
- ⇒ Minimize moisture accumulation within the building;
- ⇒ Maintain the integrity of the building envelope components through monitoring and inspections;
- ⇒ Monitor installations to ensure they remain clean and dry (including HVAC systems)
- ⇒ Create a written project environment and safety plan which identifies mould prevention practices and procedures;
- ⇒ Provide incident report forms for documenting water intrusion incidents
- ⇒ Conduct safety meetings where topics of water intrusion such as rain, snow and spills can be communicated and documented.

Helping Companies Achieve

"Constructing Safety Leadership"

**MINUTES
MOOSE JAW REGIONAL SAFETY COMMITTEE
MEETING #2 2018**

DATE: Friday, April 13, 2018

TIME: 12:10 p.m.

LOCATION: Houston Pizza – 117 Main St N, Moose Jaw, SK

ATTENDANCE:

Name	Company	Name	Company
Bryce Chelsberg	C&S Builders	Justin Prypotniski	Sask-Power
Sam Shaw	C&S Builders	Dawn MacDonald	Strictly Fences
Tom Rogers	C&S Builders	Gill Bistretzan	Strictly Fences
Con Vermette	Regal Electric	Scott Marasck	Strictly Fences
Kris McSween	Regal Electric	Chris Jackman	Strictly Fences
Justin Moisan	Regal Electric	Riley Hancock	SCSA
Mike Clark	Regal Electric	Terry Beattie	SCSA
Dave Walker	Leeville Construction	Dustin Woloschuk	Leeville Construction

2.0 CALL TO ORDER

Riley Hancock called the meeting to order at 12:10 p.m. Self-introductions were made.

2.1 ADOPTION OF AGENDA

Motion: Moved by Bryce Chelsberg, seconded by Con Vermette, that the agenda be adopted as presented. **CARRIED**

2.2 ADOPTION OF MINUTES

Motion: Moved by Dave Walker, seconded by Bryce Chelsberg, that the minutes be adopted as circulated. **CARRIED**

2.3 BUSINESS ARISING: None

2.4 REPORT

2.4.1 Chairperson's Report: None

2.4.2 SCSA Update: Riley Hancock presented the SCSA update.
(See Attachment A)

2.4.3 Adoption of Reports:

Motion: Moved by Bryce Chelsberg, seconded by Dave Walker, that the reports be adopted as presented. CARRIED

2.5 NEW BUSINESS

2.5.1 Presentation: Justin gave Sask Power Presentation

2.5.2 Tool Box Talk: Riley Hancock presented the toolbox talk on Mold/Mildew. (See Attachment B)

2.5.3 NAOSH: Discussed upcoming NAOSH in Moose Jaw – May 2, 2018

2.5.4 Accident/Incident Discussion: None

2.5.5 Discussion Items: None

1.6 DATE OF NEXT MEETING

The next meeting will be held on August 17, 2018

1.7 ADJOURNMENT

Motion: Moved by Riley Hancock that meeting be adjourned at 1:05 p.m.

R Secretary: Riley Hancock
